

Shahad Khalid Aljandal.

Software Engineer

shahad.k.a.j@gmail.com

+966 53 222 0965

Riyadh, Saudi Arabia

// PROFILE

Software engineer based in Riyadh.

I build web applications with the MERN stack and FastAPI, with a focus on clarity, accessibility, and the small details that separate good interfaces from great ones. Recent graduate from King Saud University with hands-on experience at STC.

// EXPERIENCE

Where I've been.

Full-Stack Developer — Cooperative Trainee

Jun 2024 — Aug 2024

STC — *Corporate Analytics and Data Department*

- Designed and developed frontend components in React for internal analytics dashboards used across departments.
- Built backend features and REST endpoints with FastAPI (Python), integrating with internal data sources.
- Collaborated with cross-functional teams (data, design, product) to refine workflows and deliver iterations on schedule.
- Attended technical workshops on enterprise engineering practices and CI/CD pipelines.

// EDUCATION

Academic background.

Bachelor of Software Engineering

Sep 2019 — Jun 2024

King Saud University — *Riyadh*

- Graduation project: Qawqa'a — an auditory rehabilitation system for children with cochlear implants. Led the web application side using the MERN stack (MongoDB, Express, React, Node.js) with Jest for testing.
- Coursework emphasis on web development, software design patterns, databases, and software construction.

// PROJECTS

Selected work.

Qawqa'a — Auditory Rehabilitation System

2023 — 2024

Graduation Project, King Saud University

- A digital home training kit combining a VR game (sound localization and speech perception for children) with a web-based monitoring platform for habilitation center administrators to track each child's progress and skill development.
- My contribution: led the web application side. Built the administrator dashboard, authentication, child-progress tracking views, and the REST API connecting to MongoDB.
- Stack: MongoDB, Express, React, Node.js, Jest. Tools: Postman, GitHub, VS Code, Trello.

// SKILLS

The stack.

Frontend	React, JavaScript, HTML, CSS
Backend	Node.js, Express, FastAPI, Python, Java, REST APIs
Databases	MongoDB, Firebase
Testing	Jest, Postman
Tools	Git, GitHub, VS Code, Trello
Soft	Team collaboration, communication, time management
Languages	Arabic (native), English (professional)

// AWARDS & ACHIEVEMENTS

Recognition.

First Place — Eighth National Robot Olympiad, STEAM Field, Riyadh Region.

Best Scientific Poster — SheCodes Competition, Princess Nourah University.

// VOLUNTEERING

Community involvement.

Member — Resources and Quality Committee

Jun 2020 — Jan 2021

Digital Minds Club, College of Computer and Information Sciences, KSU

Member — Human Resources Committee

Jun 2021 — Dec 2021

Innovation Center, Entrepreneurship Institute, KSU

// CERTIFICATES

Continuing education.

Programming Using Python — Saudi Platform Programming, 2018.
